Dear Mrs. Winborne & Mr. Richardson,

On behalf of Montgomery High School and the MHS-PTSA we would like to express our gratitude to Lauren Winborne for bringing the "It Won't Happen to Me" program to our High School and community on the evening of September 26, 2007. Mrs. Winborne delivered an extremely powerful and well received message on teen driving to an auditorium of 350 plus teens and parents. We have received many positive comments from parents, teachers and students. The information and stories shared have left a lasting impact on those in attendance and we sincerely hope that the safe driving message will continue to spread throughout our local community.

It is a pleasure to recommend this program for teens and adults alike. It offers an invaluable community service and is an experience every teen and parents should share. "It Won't Happen to Me" saves lives.

Sincerely,

Chip Clymer, Vice Principal
