To "It Won't Happen To Me",

I sincerely offer this word of thanks and appreciation for the presentation, "It Won't Happen To Me" as well as the presenter Lauren Winborne for having visited our school. Each year we hold a Safe Choices assembly on whatever topic we believe needs addressing with our teens. Being that the number one cause of death for teenagers is automobile accidents, we knew this program was exactly what our students needed to hear. The timing was also perfect as our prom was scheduled for the Saturday following.

Like most teenagers, in order to grasp their attention the information being given to them registers more clearly when they have a visual example of something. Therefore, I must acknowledge the impact that the video clip shown by Lauren had on the students. Our entire student body grades 9-12 were captivated and silent as they watched the pictures of deceased teens flash across the screen. Lauren was a very effective speaker as she shared some of her own personal experience with the students and clearly cared about what she was presenting. The picture books given to each student made a lasting impression on many of our teens.

Our school has been in existence for 9 years, during that time I am grateful to say we have never lost a student to the unfortunate reality of a car accident. Hopefully and God willing, this terrible fate will never come to any of our students. I would strongly recommend "It Won't Happen To Me" as an effective deterrent and educational tool for teens everywhere.

Thanks you for this opportunity.

Sincerely,

Musanna Hoskins  
Director of Guidance
